SHARING MY HEARTFELT MEMORIES

How fortunate I was, at just 16 years old, to be personally invited by Frank Sinatra to appear with him at Ceasar's Palace, in Las Vegas. This was, and will always remain, a grand highlight in my life and career.

As I recorded these songs, it took me back to those wonderful evenings on stage, and a time that I'll never forget.

JULIE BUDD's latest CD, entitled... "*Remembering Mr. Sinatra*" is both a tribute & valentine to Mr. Sinatra, who personally invited Julie to be his guest artist at Ceasar's Palace, when she was just 16 years old.

Julie says that "*Remembering ... Mr. Sinatra*" is her most personal & authentic work to date. "It includes selections that are reminiscent of those incredible bights onstage there! It allows me to share some of my most memorable moments with the audience, as well as bring some of the greatest songs ever written to a new one! While this CD preserves these for all of time, I'd like to present them as my gift to new generations, as they were once presented to me.
